EDUCATION

Emory University **Atlanta, GA**

Master of Science Public Health, (Epidemiology Track)--DATA Science Certificate *Aug 2024- May 2026*

Cumulative GPA: 3.963/4.0

Relevant coursework

- Epidemiology methods(I&II), Biostatistics Methods(I&II), Statistical programming (SAS/R), Data Science Toolkit, Applied Machine Learning, Data Visualization, Python

Franklin & Marshall College **Lancaster, PA**

Bachelor of Science, Public Health (Biology Track) *Sept 2020-May 2024*

Cumulative GPA: 3.73/4.0

Relevant Coursework

- Biostatistics, Epidemiology, Health Policy, Public Health Research

RESEARCH EXPERIENCE

Data Reporting and Analytics Consultant II **Fremont, CA**

Kaiser Permanente Division of Research *OCT 2026 - Present*

- Extract and integrate electronic health record data from clinical databases and internal Kaiser Permanente datasets using SQL and R to support research projects
- Independently develop analysis-ready datasets through data cleaning, variable derivation, cohort construction, and data quality checks
- Conduct statistical analyses and interpret findings to address project-specific clinical and epidemiologic research questions
- Participate in a clinical trial practice group, analyzing trial datasets through project-based exercises and discussing analytical approaches and interpretation

Data Collector **Atlanta, GA**

Emory Rollins School of Public Health *August 2025- March 2026*

- Curated Clinical data for 73,000+ Kaiser Permanente patients by systematically reviewing and categorizing electronic medical records to support research on gender-affirming surgical history
- Converted free-text surgical histories into analyzable coded data to support development and validation of a natural language processing application

Graduate Research Assistant **Atlanta, GA**

Master Thesis, Emory Rollins School of Public Health *March 2025-Present*

- Conducted longitudinal epidemiologic analyses for a master's thesis in a cohort of 2,415 participants (115 CAH cases and 2,300 referents) to assess cardiovascular risk indicators associated with congenital adrenal hyperplasia
- Applied regression models, mixed-effects models, and Poisson-based approaches for prevalence ratio estimation
- Managed and prepared the analytic dataset, supporting interpretation and manuscript development

Graduate Research Assistant **Atlanta, GA**

HIV study, Emory Rollins School of Public Health *January 2025 – Present*

- Conducted statistical analysis of longitudinal data using R to examine the relationship between missed daily PrEP doses and sexual behaviors
- Led the manuscript development for submission

Graduate Research Assistant **Atlanta, GA**
Share Study, Emory Hope Clinic *September 2024 – Present*

- Processed human primary cells and tissues for longitudinal ex *vivo* HIV-1 challenge experiments
- Performed HIV-1 p24 ELISA assays and multiplex cytokine panels
- Investigated cross-hormone effects on HIV susceptibility and replication, including AMAB tissues treated with beta-estradiol and AFAB tissues treated with testosterone
- Examine the effects of estrogen treatment on rectal tissue from male and female participants to compare sex-based differences in HIV replication
- Conducted qRT-PCR to measure HIV replication in ex vivo human colon biopsies treated with different HIV strains
- Data analysis and interpretation for the inflammatory response with Excel

WORK EXPERIENCE

Student Science Teacher **Lancaster, PA**
Smith-Wade Lancaster Elementary School, Lancaster January *2023 – November 2023*

- Taught appealing science topics, including weather, water cycle, environmental scenarios, human biology, and ecosystems, to 23 fifth grade students
- Introduced Higher Education to students and motivated them to reflect on their aspirations
- Facilitated cross-cultural communications through sharing Chinese traditional culture to students

Wuhan Non-Smoking Ambassador **Wuhan, China**
Wuhan Center For Disease Control & Prevention, Wuhan *September 2018 – May 2020*

- Organized 8 members to join the team and created the smoking related PowerPoint to present in the Live Streaming in Wuhan
- Conducted 100+ non-smoking related posters for community distribution
- Communicated with smoking elderlies at various communities about their smoking status and habits

LEADERSHIP

President **Lancaster, PA**
Badminton Club, Franklin & Marshall College *August 2022 – May 2024*

- Organized a club of over 80 members and cultivated members' interests in playing badminton
- Taught badminton skills to 20+ student members

SKILLS

- Programming and data analysis: R, SAS, SQL, Python, SPSS
- Statistical methods: Regression modeling, longitudinal data analysis, mixed-effects models, GEE, and prevalence ratio estimation
- Healthcare data: Electronic health record data extraction, database querying, cohort construction, data integration, and quality assessment
- Visualization and reproducible reporting: ggplot2, Shiny, Tableau, R Markdown, Git/GitHub
- Laboratory methods: Primary cell and tissue processing, cell culture, RT-qPCR, p24 ELISA, and multiplex cytokine assays
- Research training: CITI Biomedical Research, Social/Behavioral Research, Good Clinical Practice (GCP/ICH), and Health Privacy and Information Security
- Languages: Mandarin (native), English (fluent), Japanese (elementary)
